BASE BALL COMMENT.
The Wheelings return from Fort Wayne this morning, and in the afternoon will cross bats in the first of a three-game series with the Toledo. The first four clubs in the race are now bunched closely, and as Dayton meets Fort Wayne while Wheeling is battling with Toledo, the series to begin to-day are likely to bring about some changes in the standing of the four leaders. In to-day's game, Bates will likely pitch for the Stogies.

While the fans are disappointed over the three straight defeats administered the locals at Fort Wayne, there is a general opinion that the management got just what it deserved for transferring to Fort Wayne games that were scheduled for Wheeling. Had the games been played here, Wheeling would likely have won two, and remained in first place.

Ex-Manager Lytle is authority for the statement that the attendance at twenty-three games on the home grounds this season was 17,943, or an average of 750 per game. This, of course, includes several Sunday games, but at that it shows that the club has been well patronized, and ought never to have got into the financial mire.
